## PROFESSIONAL EXPERIENCE

### Vinted GmbH

Berlin, Germany / Vilnius, Lithuania | Aug 2023 – Mar 2026

Senior Analytics Engineer, Shipping Finance

- Own end-to-end dbt and BigQuery data models — single source of truth for Finance Ops and Group Reporting at month-end close.
- 90% reduction in misstatement risk on €40m exposure — through dbt tests, reconciliations, and anomaly detection.
- Faster incident detection — redesigned alerting and extended pipeline monitoring to cut time-to-detect data issues.
- Embedded a risk-based control framework into core datasets, detecting billing discrepancies and recovering €1.6m in overcharges.
- 75% cut in pipeline runtimes and 1.5TB/day reduction in query volume — incremental model redesign and BigQuery storage optimisation.
- Raised dbt unit test coverage from <1% to 50%+ in four weeks; authored a reusable testing guide independently adopted by teammates.
- Designed and facilitated the first cross-functional data workshop across VGo DSA, Finance Operations, and Group Finance — producing shared priorities and earning praise from all three teams.

- Hardened data pipelines in partnership with engineering, improving SLA attainment from 88% to 97%.
- Led finance reporting transformation using Looker dashboards, saving 5 FTE days per month in month-end close.
