

EXPERIENCE

Deezer - B2B Partnerships Analytics

Aug 2024 - Jan 2025

Data Analyst Intern

Paris, France

- Served as the Data SPOC for Black Friday A/B tests for win-back campaigns targeting 37k dormant users. Contributed to a quarterly business review covering engagement, growth, activation, retention, monetisation, and content KPIs for 4M users.
- Identified churn-prone segments through analysis of retention, streaming behaviour, and demographics, enabling a CRM campaign with 300K+ email impressions. Built a self-serve Top-N content reporting tool in Google Sheets, democratizing data access for 3 partner teams.
- Applied classification models (Logistic Regression, Decision Trees, Gradient Boosting) and forward stepwise selection to predict trial conversion for 140k+ users; achieved 65.1% accuracy using stratified sampling, z-score normalization, and Randomized Grid Search.

Swiggy - New Initiatives Analytics

Feb 2022 - Jan 2023

Senior Business Analyst

Bangalore, India

- Drove a 21% WoW lift in order volume by targeting customer segments through personalised in-app nudges, leveraging purchase patterns. Instrumented app events, created fact tables, and validated data pipelines for a new e-commerce product's data infrastructure.
- Designed Power BI dashboards for tracking KPIs of Customer App Traffic and Merchant Onboarding Funnel, accessed by 25+ stakeholders weekly. Facilitated a hands-on Introduction to SQL module for commonly referenced database use cases for 60+ employees.

Axis Bank - Collection Analytics Team

Jan 2020 - Jul 2021

Business Analyst Manager

Bangalore, India

- Owned comprehensive reporting on collection activities for the Balance on EMI instrument, and devised the strategy that generated 3.2X signups with an annual revenue saving of 9M EURO. Led end-to-end management of the Entry Rates metric during the Reserve Bank of India's Moratorium period - reporting, deep dives, cross-functional enablement - and reduced automated report turnaround time by 40%.
- Revamped the pre-due-date calling framework to target high-risk credit-card customers through digital interventions; the test population saw 28% fewer defaults. Led the Book of Insights documentation initiative at the organisation to foster cross-team collaboration.

EXL Services - Decision Analytics

Aug 2017 - Aug 2019

Senior Business Analyst

Delhi, India

- Built a topic segmentation model on unstructured survey feedback, reduced the turnaround time by 60%, eliminating manual intervention. Served as the SPOC on customer experience metrics (Agent Satisfaction, Customer Satisfaction and Net Promoter Score).
- Projected the financial impact of regulatory compliance rules, and flagged ~350,000 transactions (monthly impact of 23M EURO). Awarded Employee of the Quarter (Q1 - 2018) by the client for exceptional performance.
- Developed large-scale, optimised and automated ETL data pipelines for internal teams and external marketing vendors.

Indian Institute of Management - Digital Innovation Lab

Dec 2015 & May 2016 - Jul 2016

Winter and Summer Intern

Bangalore, India

Designed an Ethereum token and business processes for a benefits transfer mechanism project in women's menstrual healthcare.
